

Certified Medication Technician (CMT)

Our Certified Medication Technician (CMT) will perform a variety of patient care duties including administering medication, reporting changes, collecting samples, and recording medication dosages.

The ideal medication aide will be extremely detail-oriented and possess in-depth knowledge of patient care procedures. Providing excellent patient care is a vital part of this job, which is why excellent communication and interpersonal skills are needed.

Qualifications and Educational Requirements

- High School Diploma or GED
- Excellent communication and interpersonal skills
- Current certification as a Certified Medication Technician in the State of Pennsylvania
- Satisfactory performance on a competency evaluation and annual reevaluation
- Has a reliable means of transportation

Required Work Experience

- Current signed CPR Certification/First Aid

- Preferably one (1) year of employment as a Certified Medication Technician.

Responsibilities:

- Remind or dispense daily medications, either prescription or non-prescription, to patients.
- Coordinate with different nurses to assist with patient care and medications.
- Follow written or verbal instructions on how to manage medications.
- Record medication dosages and times.
- Observe patients and document changes in their condition.
- Gather samples for analysis.
- Ensure equipment is routinely inspected and cleaned.
- Uphold all health and safety standards.
- Respond to patient emergency call signals, bells, or intercom systems to identify patient needs.

Organizational Relationship

- Reports to the Clinical Supervisor
